3D Craft Doors

New 3D Craftdoor[®] from DB Industries

The **Craftdoor[®]** was first introduced into the South African market years ago by the management of DB Industries, the original developers of the **Craftdoor[®]**.

In celebrating this wonderful occasion, DB Industries is proud to introduce its new **3D Craftdoor[®]**, which evolved through our continuous research and development over the years. The **3D Craftdoor[®]** is available in a variety of designs with different shades of wood colour, that highlights the design. Our panels are UV resistant and manufactured in accordance with DB Industries exacting standards of quality, to carry a 5 year guarantee.

All **Craftdoor[®]** panels are made from thermosetting resin in a strictly controlled environment to ensure a quality product that can withstand different climatic conditions. These panels are fitted in a solid wooden frame with mortise and tendon construction. The doors are treated with Genkem NOVA 16 - NOVAGLOW[®]

Elegance Range (Meranti)
